

X100 Cable Reel Datasheet

The X100 is a compact, portable automatic cable drum designed for efficient pipeline inspection operations. Supplied with an integrated 100 metre Kevlar-reinforced cable, it is ideal for entry-level and mobile inspection applications. Featuring a motorised winding and unwinding mechanism, the X100 enables convenient cable handling and reduces operator effort. Its precise meter counter (± 1 cm accuracy) ensures accurate tracking of inserted cable length during inspections. Built with an IP54-rated weather-resistant design, the X100 is suitable for both indoor and outdoor use. Its robust construction withstands environmental influences and mechanical stress, while compact dimensions and balanced weight make it easy to transport, store, and operate in confined spaces. Fully compatible with the Maxius Crawler, X-Range Tablet, and WRC-approved mina reporting software, the X100 supports efficient, reliable, and professional inspections directly from site.

Part Number	1012-0056-0
Cable Retraction	Motorised
Cable Length	100meters
Dimensions	340 x 401 x 440mm
Weight	26.7kg
Voltage	110 - 240V AC 50Hz
Measurements	High Precision Meter Counter
Operating Temp	0°C - 40°C
Storage Temp.	-20°C - 60°C
IP Rating	IP54
Emergency Stop	Yes

Accessories Included:

Cable Connector Protective Cap

Note: Cable reel Only
