

X300 Cable Reel Datasheet

The X300 is a high-capacity automatic cable drum designed for long-range pipeline inspection in demanding industrial and utility environments. Supplied with an integrated 300 metre cable, it enables extended inspections across large-scale networks. Featuring a motorised cable winding and unwinding mechanism, the X300 delivers smooth, controlled operation with minimal manual effort - ideal for frequent, high-volume use. Its high-precision measurement system (± 1 cm accuracy) ensures accurate distance tracking over long inspection runs. Built with an IP54-rated weather-resistant design, the X300 is suited for tough working conditions. Its robust construction and larger form factor make it ideal for van-mounted installations, providing a stable and reliable solution for dedicated inspection vehicles. Fully compatible with the X-Range Tablet and WRC-approved mina reporting software, the X300 supports efficient, large-scale inspections with accurate, professional reporting directly from site.

Part Number	1012-0058-0
Cable Retraction	Motorised
Cable Length	300meters
Dimensions	747 x 350 x 535mm
Weight	70.0kg
Voltage	240V AC 50Hz
Measurements	High Precision Meter Counter
Operating Temp	0°C - 40°C
Storage Temp.	-20°C - 60°C
IP Rating	IP54
Emergency Stop	Yes

Accessories Included:

Cable Connector Protective Cap

Note: Cable reel Only
