

XPC Pole Camera Datasheet

The XPC is a portable manhole inspection system designed for fast, high-clarity inspections without the need for entry. Suitable for 150mm and above, it provides a safe and efficient solution for sewer and drainage assessments. Featuring a QHD (2560 × 1440) camera with 30x optical zoom, the XPC delivers razor-sharp image quality for detailed inspection from surface level. Its tilt range of -90° to +20° ensures full coverage of manholes and chambers. Weighing just 3 kg, the XPC is extremely lightweight yet durable, with an IP68 rating for full protection against water and harsh environments. The 8 metre carbon fibre telescopic pole, with optional extension and tripod support, enables quick setup and stable operation on site. Fully compatible with the X-Range Tablet and WRC-approved mina reporting software, the XPC supports fast, professional inspections and reporting directly from site.

Part Number	1013-0164-0
Pipe Use	150mm +
Weight	3.0 kg
Wi-Fi	Yes
Pole Length	8 Meters
Resolution	QHD (2560 x 1440 PX)
Tilt Angle	-90° to 20°
Zoom	X30 Optical - X16 Digital
Operating Temp	0°C - 40°C
Storage Temp.	-20°C - 60°C
Extendable	Yes - 4 Meter Extension
IP Rating	IP68
Submersible	Yes - Suitable for Permanent
Illumination	High-intensity LED's

Accessories Included:

- Tripod
- Height Adjustment Support Bar
- Batteries x3
